

The American Recovery & Reinvestment Act: Energy Efficient

\$1,500

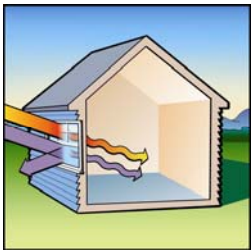

Tax Credit Information

What Is It?

In accordance with Section 1121 of The American Recovery and Reinvestment Act, homeowners will be provided with a tax credit equal to 30% of the material investment in *qualifying* energy efficient windows to a maximum of \$1,500.

Do All Windows Qualify?

No. Under Section 1121, qualifying exterior windows and doors shall achieve a U-factor of .30 or better and a Solar Heat Gain Co-efficient of .30 or less. **It should be noted that most basic Low-E & Argon glass packages will *not* qualify;** even if they meet minimum Energy Star Standards.

Do ABC Windows Products Qualify?

Absolutely. By utilizing our ABC Window Energy Saver glass package, your windows will exceed all qualifications for this program as well as all Energy Star Standards. **Ask your local ABC Window Consultant for details and about how you can get your windows *now* and pay in 2010.**
